POWERSERIES KEYPADS

COLOR TOUCHSCREEN SECURITY INTERFACE

PK5590CL

The color touchscreen security interface features a contemporary design that complements the décor of today's modern installations. The security interface combines basic keypad functionality with an intuitive touchscreen environment to provide an increased level of user convenience. Executing everyday functions such as arming/disarming, zone bypass and system configuration are simplified through the inherent usability of the touchscreen display.

The faceplate and the design of the GUI can be customized* per dealer's or distributor's preferences. Choose colored faceplate designs, tailor the appearance of the display and add graphics to suit preferences and décor.

- Aesthetically pleasing, modern design
- High-contrast, color touchscreen QVGA display
- User-defined functionality
- Customizable faceplate and GUI designs*
- Flush-mount
- Prominently displayed FAP keys (with blue LED background)
- Intuitive LED indication of security system status
- Auto-adjusting CCFL (Cold Cathode Fluorescent Lighting) backlight
- Compatible with PC1616, PC1832 and PC1864 control panels
- Info button leads to Help screens
- Available in English and French languages

* The cost of customization is dependent on the complexity of the request. DSC will work with its customers to maximize affordability and appearance

5511 SERIES ECONOMICAL KEYPADS

Among the new products comprising the updated POWERSERIES product platform are the value series LED5511Z and LCD5511 portrait keypads. Both keypads present the system status of DSC POWERSERIES security systems through the display of fixed symbols and numbers. Quick to install, the keypads are equipped with a wire channel for flush-mount applications and large, backlit buttons for trouble-free viewing and activation.
